NOTE: Percentages across characteristics within a section of this table may not add to 100.0% as a result of rounding.

* All people ≥ 13 years who were newly diagnosed with Stages 1 through 3 HIV infection while residing in New Mexico during 2019.

^a Number of infections per 100,000 NM residents 13 years and older based on Bureau of Business and Economic Research Geospatial and Population Studies Program population estimates for 2018.

^b For new diagnoses, age at time of diagnosis (2019). For persons living with HIV Stages 1 to 3, current age.

^c For new diagnoses, residence at time of diagnosis (2019). For persons living with HIV or AIDS, current residence.

^d All HIV positive individuals that don't have identified or reported risk factors based on questions on the NM HIV Case Report Form and CDC HIV risk definitions.

^e High risk is defined as sexual contact with a person who injects drugs, bisexual males, or persons with a documented HIV diagnosis.

† The 2019 interim report does not include information about death or perinatal exposure that occurred during 2019.

NOTE: The data presented in this report provide a minimum estimate of New Mexico residents ≥ 13 years known to be infected with HIV.

N < 20: Rate calculations for small numbers may be statistically unreliable. Fluctuations in the associated rates may be due in part to statistical unreliability rather than true change.

Region: New Mexico Department of Health constructed new health regions in 2012. Regional comparison to previous years is not recommended. A map depicting New Mexico's Health Regions is available for download from the New Mexico Department of Health at <https://bis.health.state.nm.us/view/docs/HealthRegions2012.pdf>.

Persons imprisoned in a state and county correctional or federal detention facility, including ICE facilities, or who were housed in a residential facility (e.g., drug treatment facility), were included in the data presented unless otherwise noted.

Data Source: eHARS (Enhanced HIV/AIDS Reporting System) document and person data set 2020, 2nd quarter (June 26th, 2020).
