Footnotes	Cautions
<p>NOTE: Percentages across characteristics within a section of this table may not add to 100.0% as a result of rounding.</p> <p>* The COVID-19 pandemic resulted in delayed reporting as well as reduction in both care services and testing. Data should be interpreted with caution.</p> <p>** All people ≥ 13 years who were newly diagnosed with Stages 1 through 3 HIV infection while residing in New Mexico during 2020.</p> <p>^a Number of infections per 100,000 NM residents 13 years and older based on Department of Health New Mexico Indicator-Based Information System (NM IBIS) population estimates for 2020.</p> <p>^b For new diagnoses, age at time of diagnosis (2019). For persons living with HIV, current age.</p> <p>^c For new diagnoses, residence at time of diagnosis (2019). For persons living with HIV or AIDS, current residence.</p> <p>^d Data does not include annual death and birth match activities with NM Vital Records and other federal entities.</p>	<p>NOTE: The data presented in this report provide a minimum estimate of New Mexico residents known to be infected with HIV ≥ 13 years.</p> <p>N < 20: Rate calculations for small numbers may be statistically unreliable. Fluctuations in the associated rates may be due in part to statistical unreliability rather than true change.</p> <p>Region: New Mexico Department of Health constructed new health regions in 2012. Regional comparison to previous years is not recommended. A map depicting New Mexico's Health Regions is available for download from the New Mexico Department of Health at https://ibis.health.state.nm.us/view/docs/HealthRegions2012.pdf.</p> <p>Persons imprisoned in a state and county correctional or federal detention facility, including ICE facilities, or who were housed in a residential facility (e.g., drug treatment facility), were included in the data presented unless otherwise noted.</p> <p>Data Source: eHARS (Enhanced HIV/AIDS Reporting System) document and person data set 2021 (August 26th, 2021).</p>
