Asthma Control Program
Asthma Data Request Form

The New Mexico Asthma Control Program (NMACP; a component of the Environmental Health Epidemiology Bureau-Epidemiology and Response Division) is committed to improving the health of New Mexicans. In addition to its leadership role, among the ACP focus areas are data sharing with partners. The ACP considers the use of asthma related most recent data critical for policy development and program planning in the state. The ACP will provide available data upon request to all parties. However, this form is needed to document the data sharing activities and the data use by partners.

Data will be aggregated. If you need access to identifiable/secure data, please follow the DOH procedures available in this link:

<https://nmtracking.org/user/SecureDatasetRegistration.html>

If you need asthma data, please complete the following and submit the form electronically. Please use as much space as necessary.

Name of the Organization	
Name of the person requesting the data	
Position of person requesting data	
Which data are needed (please specify variables names)	
Why these data are necessary?	
How these data will be used and what outcome is expected from such uses	

If you have any questions, and for submitting this form please use the Asthma Program Manager/Epidemiologist email address Diana.Wilkerson@state.nm.us

Please sign and date this form
