EPIPEN® (EPINEPHRINE) AUTO-INJECTOR DIRECTIONS

- call 911 or call for help
- remove the EpiPen Auto-Injector from the plastic carrying case
- pull off the orange or green safety release cap
- With your other hand, **remove the blue safety release by pulling straight up** without bending or twisting it.
- swing and firmly push orange tip against mid-outer thigh at a right angle
- hold for approximately 3 seconds
- remove the autoinjector from thigh
- place autoinjector back into plastic case needle first

ADRENACLICK®/ADRENACLICK® GENERIC DIRECTIONS

- call 911 or call for help
- remove the outer case
- remove grey caps labeled "1" and "2"
- place red rounded tip against mid-outer thigh
- press down hard until needle penetrates
- hold for 10 seconds. Remove from thigh
- place autoinjector back into plastic case needle first
