August 22, 2014

Paul Torres, Lab Supervisor
New Mexico Department of Health
Environmental Microbiology Section
Scientific Laboratory Division
1101 Camino de Salud, NE
Albuquerque, NM 87102

Dear Mr. Torres:

The milk laboratory (FDA# 35005) is at full accreditation. The required response to my May 2013 evaluation of the milk laboratory was submitted on time and was satisfactory. The laboratory's accreditation and analyst certification was extended to May 2016 and the Interstate Milk Shippers List was updated to reflect the laboratory's expiration date when the response was received.

Sincerely,

A handwritten signature in black ink, which appears to read "Thomas E. Graham". The signature is fluid and cursive, with a long horizontal stroke at the end.

Thomas E. Graham, Ph.D.
Team Leader, LPET
