

This guide is a summary of various datasets regarding many health-related topics. Many of the datasets are compiled by the Department of Health, but also included are data compiled by other state and private agencies. This guide is intended as a resource directory and contains the most-frequently requested data.

There are several tabs at the bottom of the document. Each tab is a separate worksheet containing information related to a specific topic. For each topic, we've tried to note the geographic level availability, the years available, whether available in print or on-line and the contact person for the specific data. Please note that Gay Romero, in the Community Health Assessment Program, is available to assist you with any data needs.

Please also contact Ms. Romero if:

- You see any errors
- You have any suggestions as to content or format
- You would like to include the data you manage or collect
- You have any other feedback, either positive or negative

Contact Information:

Gay Romero, Community Health Assessment Program
(505) 476-3566
Gay.Romero@state.nm.us

Tab Label	What this means
Tribal Affil	Listing of datasets for which tribal affiliation is available
Cens Sum File1&2	Summary Files 1 & 2 from the US Census Bureau
Popn	Population
Births	Birth Data from NM Bureau of Vital Records and Health Stati
Death VS OMI	Death Data from NM Bureau of Vital Records and Health
Death Otr	Death data from all other data sources
Morbidity Traffic	Morbidity (illness, injury) data related to traffic events
Morbidity GenI	General morbidity data, that is, injury & illness not stemming
Morbidity GenI(2)	Second page of general morbidity data
Pop Surveys	Population surveys, that is, surveys about entire populations such as all adults, all school youth, all mothers who recently
Services	Data about services that people have used and data about the people who have used the services. Includes
Sociodemog	Selected social, demographic data other than population counts that are compiled by a variety of organizations and
Epi Staff Contact	topic they work in and their phone and email info

DESCRIPTION OF DATASETS

For each dataset listed, you will find a description of the dataset, the population covered, how the data are collected, whether race/ethnicity or tribe is included and contact information for the dataset. To access that

ALCOHOL-RELATED MORBIDITY & MORTALITY

CONTACT: Jim Roeber (505) 476-1757 Jim.Roeber@state.nm.us

EPIDEMIOLOGY & RESPONSE DIVISION

<i>Purpose or mandate for data collection</i>	For surveillance and tracking; to help determine the burden
<i>Definition of case/record in the database</i>	No specific dataset. Data is obtained from the Vital Records, National Survey of Drug Use & Health, Behavioral
<i>Population covered by the database</i>	Population in New Mexico

Census 2000 Summary File 1 (SF 1) 100-Percent Data

Last Update: 01/09

Summary File 1 presents counts and basic cross tabulations of information collected from all people and housing units. It includes counts for many detailed race and Hispanic or Latino categories. Over 750 Quick Tables and Geographic Comparison Tables are derived from SF 1 and are available online.

Date: April 1, 2000 (Census Day) is the reference date for Census 2000.

Geographic Coverage: Summary File 1 presents data for the United States, the 50 states, and the District of Columbia in a hierarchical sequence down to the block level for many tabulations, but only to the census tract level for others. Geographic coverage for Puerto Rico is comparable to the 50 states, but also include barrios, barrios-pueblos, sub-barrios, places census tracts, block groups and blocks. Summaries are also included for other geographic areas such as ZIP Code Tabulation Areas (ZCTAsTM).

Data Content: The information in this file includes age, sex, race, Hispanic or Latino origin, household type, relationship, group quarters, whether the residence is owned or rented (tenure), and vacancy status.

Documentation: Can be found in these PDF documents on the American FactFinder site:

Accuracy of the Data: Census 2000 Summary File 1 (SF 1) 100-Percent Data (PDF 44KB)

Census 2000 Summary File 1 (SF 1) 100-Percent Data Technical Documentation (PDF 9.1MB)

United States Census 2000 Questionnaire (Short Form) (PDF 263KB)

NOTE 3: For assistance, please contact the Department's Health Data Resource Cen Gay Romero
Telephone: (505) 476-3566
Email: Gay.Romero@state.nm.us

Census 2000 Summary File 2 (SF 2) 100-Percent Data

Summary File 2 contains 100-percent population and housing characteristics, but the tables in this file are iterated for a selected list of detailed race and Hispanic- or Latino-origin groups, as well as American Indian and Alaska Native tribes. Various Quick Tables and Geographic Comparison Tables are derived from SF 2.

Date: April 1, 2000 (Census Day) is the reference date for Census 2000.

Geographic coverage: Census 2000 Summary File 2 presents data for the 50 states and the District of Columbia. For this file, the lowest level of geography will be the census tract, and there will be a population-size threshold before information is shown for a particular race, Hispanic- or Latino-origin, or tribal group. Geographic coverage for Puerto Rico is comparable, but covers the area of the 78 municipios that comprise Puerto Rico.

Data Content: The information in this file includes age, sex, race, Hispanic or Latino origin, household relationship, and whether the residence is owned or rented.

Documentation: Can be found in these PDF documents on the American FactFinder site:

Accuracy of the Data: Census 2000 Summary File 2 (SF 2) 100-Percent Data (PDF 44KB)

* Existing data are data which have been released to the public, in print and/or online.												
** The Bureau of Business & Economic Research (BBER) at UNM is the official state-designated center for Census data. BBER develops population projections for NM and counties. BBER also develops population estimates. Both of these are posted on BBER's website. Population data on the Census website (called American Factfinder) also has population estimates, but these differ from BBER estimates. DOH, Epi & Response Div., currently has contract with BBER to produce detailed population estimates; these generally are released Sept/Oct of the year. A publication/dissemination schedule for Census data is posted on their site but the actual release dates are often later than what are stated. (AWAITING RESPONSE FROM DATABANK B4 FINALIZING THIS NOTE.)												
*** Sub-county generally means: incorporated cities, towns and villages, or tribal area that doesn't cross county lines												
Ancestry Refers to a person's self-identification of heritage, ethnic origin, descent, or close identification to an ethnic group. Selected												

	ancestry groups include Arab, Brazilian, Canadian, Czech, Irish, Italian, Russian, Subsaharan African, West Indian, etc.						
	Occupation describes the kind of work the person does on the job.						
	Industry relates to the kind of business conducted by a person's employing organization.

From NM Vital Records & Health Statistics											
<i>NM Selected Health Statistics</i>				1980s	2007	Varies	N	Annually			VRHS Annual Report. See below for availability of print copies. On line at:
<i>County Health Profile</i>				2002	2002	2004	Y	no longer produced			Department of Health: Health Data
<i>County Health Profile</i>				1993	2002	Varies	-	produced			limited number of print copies; call VRHS at 827-2532
<i>Women's Health Profile</i>				1992	1999	Varies	Y	Varies			limited number of print copies; call VRHS at 827-2533
<i>NM Tribal Report</i>				1990	1999	Varies	Y	Varies			data by tribal affiliation (includes those in & outside reservations)

Notes:

- * Existing data are data which have been released to the public, in print and/or online.
- ** Not all data at county or sub-county level may be released due to small numbers. Multiple year aggregates or other ways to compensate for small numbers may be needed. Sub-county data are not regularly produced. Please contact VRHS: 827-2535; vrhsdata@state.nm.us.
- 1 Sub-county birth, death data are not produced in publications or online. Contact VRHS at 827-2532 or vrhsdata@state.nm.us.
- 2 Death files are generally retrievable electronically back to 1990. Paper files back to 1970s exist. Paper files to earlier decades are inconsistently available.
- 3 Data for the year AFTER the year listed in this column may be available on a provisional basis after June. Example, after June 2004, provisional 2003 data may be available.
- 4 "M" means published or produced monthly, in the NM Monthly Vital Statistics report or online. Data in these reports are usually provisional. Final annual statistics are in the Annual Report. Call 827-2532 for a print copy.
- "AR" means the NM Selected Health Statistics Annual Report. Published in the fall with the annual statistics of 2 years prior. Call 827-2532 for a print copy.
- 5 Most reports available at: [Department of Health: Health Data](#)
- 6 Leading causes are ranked from the rankable cause list. Death data available online are not presented as leading causes of death.

	Notes:										
*	Existing data are data which have been released to the public, in print and/or online.										
**	Traffic crash data are of two types: a) info about the motor vehicle <u>crashes</u> (location, contributing factors, seatbelt use, etc.); and b) info about the <u>people</u> in the crashes (# injured, died, ages, etc.). Analysis & reports done by Division of Government Research, UNM; data owned by NM Dept Transportation, Traffic Safety Bureau.										
1	Crash rates may be per 100 million vehicle miles, per 100,000 people or per 1,000 residents. Check the footnotes!										
2	Crash rates shown for cities with a population of 3,500 or more.										
3	These are typically intersections within cities or highway segments in rural areas.										
4	Severe alcohol crash rates are per 1,000 licensed drivers.										
5	Conviction rate is per 1000 licensed drivers. This rate does NOT count convictions resulting from DWI citations issued, but only cases that actually went to court (stood before a judge). Sanctions are: substance abuse treatment, DWI School, Probation, Community Service, Victim Impact Panel.
