### About the VFC 400-1 Vaccine Monitoring Kit:

The VFC 400-1 Vaccine Monitoring kit can be used in either a refrigerator or freezer. One kit is needed for each cooling unit. The VFC 400 docking station would reside at the computer you will download data to and can work with an unlimited number of VFC 400 data loggers. You do not need a Docking Station for each VFC 400 data logger.

Our VFC 400 comes with everything needed to have a nice professional installation. We supply an extra battery so you won't have to source them before your calibration expires. These data loggers are fast, easy to use and reliable.

You can call to place your order at 888-311-0636. Ask for the New Mexico VFC 400 special.
