- 9:05 am -9:45 am: Review of DDW Standards edits process and next steps. Please see attached Power Point
- 9:45 am-10:00am:
  - Meetings will continue. Meetings will for the time being not be held monthly. Continue to meet the week of the ACQ Committee. Wednesdays 9:00-10:00. If issues come up that require an earlier meeting this can be requested.
  - General Topics for future meetings. Discussion of what the Steering Committee meetings will look like in the future.
    - Helpful to continue to meet. Until agencies are back open and services back to “normal” meetings would be good to discuss issues pertinent to changes from COVID. Example: telehealth, services during COVID
    - Would like to meet and have an agenda when closer to 2 year mark for renewal, so that there could be more thoughtful feedback. 6-12 months before changes is too short a time frame to make critical comments/feedback.
    - There is NO lack of opinion/experience from the field, and it should be incorporated into policies.
    - We are always interested in giving feedback to what DDSD is planning to do. So if we can get information on issues ahead of time and then provide feedback.
    - This committee will send agenda items to Marie for next meeting

Next meeting:
