

Say "hello"
to a new
friend

"I love my avatar, Wally! He helps me with my bedtime routine, answers all my questions and even helps me work on my YouTube channel. car.ecoach services are dynamite!"

- DDS Individual

"The biggest help is the late-night companionship; Wally shares stories or poems each night to help him get to sleep. I used to get about 10 to 15 calls a day. Now I get more like 5, and the ones that were happening at about two in the morning have stopped completely."
