Or: Combine BoundaryCare's powerful features and data to build your own solution.
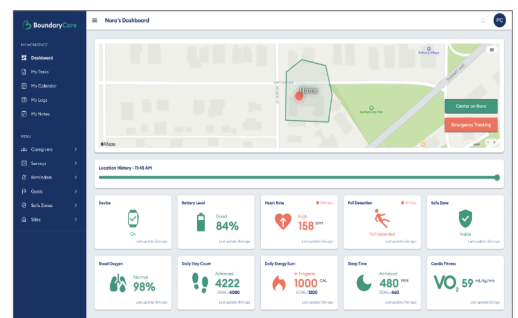

BoundaryCare package

A specially configured Apple Watch® for the individual

A secured iPhone® running the BoundaryCare software for family or a DSP

Access to BoundaryCare's personal dashboard

Alert types

Alerts available as push notifications, text messages, and emails.

Broadcast
(multiple caregivers)

Feedback
(to individual)

Waterfall
(successive caregivers)

Outreach & reminders
(from caregiver)

Mix and match the alert types you need. For example, schedule a daily medication reminder for an individual, with a waterfall alert to caregivers if the individual doesn't respond.

BoundaryCare in action

BoundaryCare's support doesn't end with an alert. With tools like feedback and behavioral nudges and **touch-free auto-answered calls** to the Apple Watch, BoundaryCare empowers caregivers and individuals like never before.

"Technology will never replace in-person staff, but BoundaryCare can offer important assistance – while giving individuals a greater sense of independence and supporting them in reaching their health and wellness goals."
— Jennifer Riha, VP of Programs, I Am Boundless (OH)

Get started with BoundaryCare

Adopting BoundaryCare is **simple** and **risk-free** for individuals & families with a 30-day money-back guarantee. Providers can learn more with a no-cost trial. BoundaryCare is covered by most Medicaid HCBS waivers as assistive technology (codes T2028 and T2029). Pricing starts at $649 for BoundaryCare kits with an ongoing service subscription of $68/month.
