FORMULARY LIST FOR USE IN FAMILY PLANNING

Barrier and chemical methods

Contraceptive foam with applicator
Female condom
Male condom lubricated
Vaginal spermicidal film

Drugs

Prenatal Vitamins

Emergency contraception

Levonorgestrel 1.5 mg

Fertility awareness

Cycle Beads

Ovulation Thermometer

Injected method

Depo-Provera (Medroxyprogesterone Acetate) Inj
150 mg/ml.

Inserted - Client

Vaginal Contraceptive Ring

Inserted - Clinician

Contraceptive Implant

Levonorgestrel IUD 52mg

ParaGard T380A IUD

Oral contraceptives

Listed in Substitute Table on the following pages

By Prescription

The primary purpose of a family planning clinician is to provide contraceptive services to essentially healthy people, NOT to be the primary care agent.

If a client needs treatment by a medication not stocked by the PHD Pharmacy, he/she may purchase it at their own expense through a prescription written by a duly licensed clinician.

To maximize Title X supplies, PHO clinicians may prescribe contraceptive methods that are available in the PHO formulary to insured (Medicaid) clients. PHO clinicians may not prescribe contraceptive methods that are not available in the PHO formulary to insured clients (because filling a similar prescription would pose a barrier to uninsured clients).

The pharmacy provides single copies of current drug monographs for nurses to copy that contain client information about the drug being dispensed. They are to be given with all prescription drugs dispensed as mandated by the New Mexico Board of Pharmacy.

OCP Substitute Table

Listed by **class** and **alphabetical order** in each choice.
OCP brands may vary due to manufacturer availability and cost.

Class	First Choice	Second Choice	Third Choice
Combined Oral Contraceptive (COC)			
Class I: 20 mcg ethinyl estradiol (ee) (CI-20)	0.1 mg levonorgestrel/ 20 mcg ee <i>May include:</i> Aviane Orsythia Lessina Sronyx Lutera	1 mg. norethindrone/ 20 mcg ee <i>May include:</i> Gildess Fe 1/20* Junel Fe 1/20 Loestrin Fe 1/20 Microgestin Fe 1/20	
Class II: 30 mcg ee (CII-30)	0.3 mg norgestrel/ 30 mcg ee <i>May include:</i> Cryelle Low-Ogestrel Lo/Ovral*	0.15 mg levonorgestrel/ 30 mcg ee <i>May include:</i> Altavera 0.15/30 Levora Nordette* Portia Seasonale* Seasonique	1.5 mg norethindrone/ 30 mcg ee <i>May include:</i> Gildess Fe 1.5/30* Junel Fe 1.5/30 Loestrin Fe 1.5/30 Microgestin Fe 1.5/30
Class III: 35 mcg ee/ Norethindrone (CIII-35)	1 mg norethindrone/ 35 mcg ee <i>May include:</i> Alyacen 1/35 Cyclafem 1/35 Necon 1/35 Norinyl 1+35 Nortrel 1/35 ON 1/35	0.5 mg norethindrone/ 35 mcg ee <i>May include:</i> Aranelle Brevicon 0.5/35* Modicon* Necon 0.5/35 Nortrel 0.5/35	0.4 norethindrone/ 35 mcg ee <i>May include:</i> Balziva Briellyn Ovcon 35 Zenchant
Class IV: 35 mcg. ee/ Norgestimate (CIV-35)	0.25 mg norgestimate/ 35 mcg ee <i>May include:</i> MonoNessa Ortho Cyclen Previfem Sprintec		

Class	First Choice	Second Choice	Third Choice
Progestin Only Pill (POP)			
Class V: Progestin Only Pill (CV-POP)	0.35 mg norethindrone <i>May include:</i> Camila Errin Heather Nor-QD Jolivette Nora-BE Micronor
