Subject: [EXT] 7.8.2 Rulemaking comment
Date: Tuesday, August 25, 2020 4:16:57 PM

Dear Sir,

The announcement of this meeting needs some editing, as it is misleading.

"This hearing will be conducted to receive public comment regarding the proposed amendment of the current rule concerning the services for residents at facilities operated for the maintenance or care of two (2) or more adults who need or desire assistance with one (1) or more activities of daily living excluding the residence of an individual who maintains or cares for a maximum of two (2) relatives."

Clearly some punctuation is needed. I suggest a period following "daily living", and replacing "excluding" with "This excludes". This seems consistent with 7.8.2.
